# NINA IMANI

Respect.  
Empowerment.  
Independence.

Our vision is to support and empower vulnerable Tanzanians to attain financial independence and self-sufficiency

Nina Imani is Swahili for 'I have confidence' and it's confidence that we aim to ignite within the communities we support.

Our mission is to partner and fund social programmes managed by grassroots Tanzanian NGOs through donations and governance support. To fuel economic empowerment by providing funding for study and small business initiatives

Education and basic economic security should be a human right. All human beings need a sense of security, to give a sense of belonging, a sense of stability and a sense of direction.
